

### **How to identify filings with errors?**

Each docket entry modification made by court staff creates a Notice of Electronic Filing (NEF). Since the number of NEFs can be overwhelming, create an email rule to direct certain NEF emails to a location where someone can review and address any issues.

Create email rule with the following criteria:

1. From = [ecfwebmaster@wawb.uscourts.gov](mailto:ecfwebmaster@wawb.uscourts.gov)
2. Subject line includes the word = updated

**From:** [ecfwebmaster@wawb.uscourts.gov](mailto:ecfwebmaster@wawb.uscourts.gov)

**To:** ecfwebmaster

**Message-Id:** <36097401@wawb.uscourts.gov>

**Subject:** 25-11111-CMA Docket Entry #5 has been updated
